

### **Agata Sosna among the winners of the "Złoty Wawrzyn" literary competition!**

Despite the unfavorable epidemic situation, as every year, there was a review of the literary work of school children and youth from the district of Wodzisław, organized for 19 years by the PODN. The competition has enjoyed unflagging popularity for years, and although its form changed and the works were sent over the Internet, the number and variety of topics covered surprised the organizers. One of the laureates of this year's edition of the competition was a student of our school. Agata Sosna from class IIe4 took first place in the POETRY category (secondary schools). Agata likes romantic poets and the works of Wisława Szymborska. Congratulations and we are waiting for the debut book of poems!
